UNFAIR FREIGHT RATES FOR PRESCOTT

(From Wednesday's Daily.)

Supplementing its suit recently filed with the Interstate Commerce Commission against the Santa Fe Railroad and the Santa Fe, Prescott and Phoenix Railroad, the Arizona Brewing Company, through its attorney, Judge H. T. Andrews, has filed a complaint against the same defendants as are named in the first suit, and in addition the Maricopa and Phoenix and Salt River Valley Railroad and the Southern Pacific Company, alleging extertionate and discriminating rates against Prescott and in favor of St. onis, Los Angeles and El Paso.

In its petition asking for mandate compelling the defendants to revise their schedules on a more equable basis, the Arizona Brewing Company sub-mits a table of rates which on its face shows that the allegations concerning unjust charges are well sustained. Here are some of the figures:

The rate on beer from Prescott to Willcox, 349 miles, is \$1.66 per 100 pounds in barrels. From St. Louis, 1477 miles, tae date is \$1.15; from Los Angeles, 589 miles, the rate is but 56 cents; from El Paso, 232 miles, only 59 cents. While El Paso is less disant, the ratio of charge on a mileage very heavily against Prescott.

The rate from St. Louis to Benson, 1540 miles, is \$1.15; from Los Angeles, 547 miles, 53 cents; from El Paso, 295 miles, 69 cents; from Prescott, miles, only twelve miles further than El Paso, \$1.52.

From St. Louis to Tueson, 1557 A. R. MacKay, presenting the Vul. | miles, the rate is \$1.15; from Los An

The petition proceeds: "That the unjust, unreasonable and discriminato-It has not been decided positively ry rates and practices of the defenyet just how large a force of workmen dants are illustrated by the foregoing will be put on as it will be necessary table, showing a disadvantage to Presto at first make a thorough inspection cott of 24 cents per 100 pounds to Maricopa; 37 cents to Casa Grande; 55 were \$3,650.78, license collections \$811, will be necessary. It is not probable cents to Red Rock; 76 cents to Tucson; and tax collections \$10. that the pipe line from the river will 99 cents to Benson and 110 cents to be rebult since the new management Willcox in favor of Los Angeles, notwithstanding Prescott has a natural advantage to each of these points of this will be accomplished since there 240 miles; that to Gila the disadvanprospect of opening up a valuable property. The shaft, now sixty feet property. The shaft, now sixty feet deep, will be pushed to the hundred foot level, where a station will be cut and drifts run each way on the vein. A waim will be installed at once by Tuesday next, when sinking will be has been pumped out at regular interest at a disadvantage of but 89 miles vals and all indications are that it is while in rate the disadvantage is 128 not seepage water but a permanent cents per 100 pounds; that Prescott flow. There is also talk of an auto is subject to a great disadvantage in mobile line to the mine for transporta- rates to all points named in favor of El Paso, Texas, notwithstanding the Papers filed for record with County distance is, with the exception of Ben-Recorder Leonard show that \$275,000 son and Willcox, greatly in favor of 'and other valuable considerations," Prescott; that Prescott is at a further was the price paid in the recent sale disadvantage in respect to St. Louis except to the unimportant points of Red Rock, Casa Grande, Maricopa and the deed, mortgage and agreement, Gila, notwithstanding Prescott has the advantage in distance of from 1128 to 1472 miles."

The complaint further alleges that defendant companies have repeatedly son. Henry M. Love is president of be compelled to desist from aforesaid ordered to publish within a reasonable Together with all the macainery and time "through joint rates from Prescott, when such lawful rates shall have been ascertained, and for such further orders as the commission may deem necessary in the premises."

A. AND A. AT JEROME

(From Thursday's Daily)

Jeromeites interested in the Arkan sas and Arizona Company were made happythis week by the discovery of some high grade ore in the drift from the main shaft on that property. It was in the shape of a small deposit, all who understand the conditions in the Jerome district. This company has spent a lot of money in a legiti mate manner on this property, and all residents of the district are more than pleased that indications are favorable to the discovery of ore in their hold

General Manager of the Cleopatra is making every preparation for the delivery of ore to the smelter belong ing to that company, which is now ir condition to be put into commission just as soon as material for smelting purposes can be gotten on the ground The smelter should be at work within sixty days. Development on this property is proving that it will, in very near future, show up additions large high grade bodies of ore. drifts south of the Dillon tunnel ar giving up some splendid ores, and looks now as if they were approachinsome large bodies,

Good reports continue to come from the Mescal, where sulphides are beinencountered at every foot of work. Work on the Eureka, Verde Grande esteem by all who enjoyed his acquain-tance. He leaves no immediate relating rapidly and with good results. Little Daisy and Haynes is progres Jerome News.
